## THURSDAY 5<sup>TH</sup> MAY 2011

H. 10,30 - FIUMICINO TOWN HALL - VIA PORTUENSE, 2498

# THE PROJECT

**S**electing and financing by the European Commission, will last in two years and plans to do two Conferences in Fiumicino, one at the beginning and the other at the end of the project, and three workshops in each European partner city.

It aims to focus on the approach of young European students of secondary schools from Malta, Romania and Greece to the cultural heritage of their territory and to involve the local institutions and the Superintendence of Cultural Heritage in the valorization of this heritage.

The students, together with teachers and experts, will identify sites where to work up to the methodological guidelines chosen and in the meetings with other European countries, they will have the opportunity to introduce their work by comparing the methods used.

Finally, it will be identified the most appropriate methodology to attract young people to the heritage of their territory and to appreciate the beauty and resources that it offers, in order to valorize it appropriately in terms of local marketing.
